DETAILED ACTION

Reasons For Allowance

1. The claims 1-14 are allowable over the prior art of record for at least the reason that the prior art fails to teach or suggest a structure as in claim 1; **Regarding Claim 1;** a housing for connection to a carrier for a disk drive unit; an air flow control device is arranged at the side of the air flow generator provided at the same vertical level within the temperature control device as the air flow generator, the air flow control device being substantially planar and slidable to vary the degree of opening of apertures within a side of the housing of the temperature control device. The aforementioned limitations in combination with all remaining limitations of the respective claims are believed to render the independent claim 1 and all claims dependent therefrom patentable over art of record.

2. Any comments considered necessary by the applicant must be submitted no later than the payment of the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
